

Potions

Ideas for home learning

- ♦ Make a list of all the solids, liquids and gases you can find at home. Are they kept safely?
- ♦ Make a sketch of any interesting bottles you have at home. Remember to add patterns, textures, shading and finer details!
- ♦ Make home-made perfume or potions using things you find in the garden or bathroom (check with an adult before you start about which substances are safe to use). Use a pestle and mortar to grind up the things you find. Add liquid and strain to get rid of the lumpy bits! What have you made?
- ♦ Calculate how many litres of water it takes to fill your bath. Which uses less water, the shower or the bath? How can you find out?
- ♦ Make ice lollies at home. Can you add a surprise ingredient that reveals itself as the ice melts?
- ♦ Visit your local library or book shop to search for other plays and stories on the theme of potions. Write a book review and share it with others in the class.
