

Engage

We will start our topic of 'Our World' by revisiting everything we know already about plants. We will then look at what plants need to survive and the different parts of a flowering plant. We will conduct investigations to find out the conditions that plants need to survive and how by changing these, the plants grow differently. We will also look at how water is transported within plants.

Year 3 – Summer 2

Topic: Our World

We will develop our drawing skills by looking at drawing and sketching in detail. We will then study two artists (Vincent Van Gogh and LS Lowry), comparing them and making our own versions of their work. We will then use these skills to collage and mark make a landscape before evaluating our finished piece against the artists.

Express

The children will learn about:

English:

- Persuasive writing (Independent Write)
- Take One Book – It's Your World Now (looking at transition and goals)
- Poetry

Maths:

- White Rose – Statistics
- White Rose – Mass and Capacity

Science:

- Plants

Geography:

- Countries in Europe
- UK
- Climate Zones and Weather
- Settlements
- Comparing Human Features
- Fieldwork

Other areas of learning:

RE: Where, How and Why Do People Worship? (continued)

Music: Beds Music Service – Steel Pans

PSHE: Jigsaw – Changing Me

PE:

- OAA (Outdoors)
- Athletics (Outdoor/ Indoor)

Computing:

- Rising Stars – We Are Opinion Pollsters
